Year2

Wow, what a busy year we've had! It's hard to believe this is the children's last term in Year 2. The children have made wonderful progress this year and we are so proud of them all. Last term, we were busy learning all about India and enjoyed a Holi 'festival of colours' celebration day complete with Indian dancing food tasting and a carnival of colours. In maths, we learned to identify fractions, tell the time on an analogue clock to o'clock, half past, quarter to and quarter past the hour. It has been a pleasure teaching the children this year and we wish them luck for next year.

Reading

Children are continuing to make great progress with their reading. We ask that children read daily with an adult at home as this helps to develop fluency. Please remember to record this in children's reading records as they are always so eager to share this with us.

This term our PE days will continue to be Mondays and Fridays.

Reminder-earrings to be removed for all PE sessions please. If these can be removed at home so children are ready for the lesson this would be greatly appreciated. Everyday, children need to bring a named: water bottle, hat and their reading record. please.

Spellings & Numbots

Every Friday, your child will bring home new spellings to learn. Please practise these for 5 minutes a day.

We will continue our focus on the 'common exception words'. Children have been working hard on these and we would like to ensure these are secure as they embark on their journey into Year 3.

Children are now very familiar with Times Table Rockstars. Please continue to practice at home at least once a week to help develop fluency and recall. You will find all the login details in your child's reading record. Numbots and TTRS are the same login details.

Curriculum

During this term, we will be learning about our topic of 'Let's go on holiday'. We will look at the human and physical geography of Hunstanton, enjoy a beach experience day in school, complete with a Punch & Judy workshop and make our own beach huts as our Design Technology project.

Our next maths unit is statistics and we will be exploring tally charts and pictograms.

In Science, we will be looking at

living things and their habitats.

<u>Year 2 dates for your diary</u>

16th June-Sports day

9th July-Punch and Judy workshop in school. No cost to parents

10th July-beach experience day in school, children can wear shorts & t-shirts. No cost to parents.

6th July-transition day
